One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... N/A

3. The water to be used for..... Commercial - Stockwater for dairy cattle  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered..... 3000 Holstein Dairy Cows and Heifers

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point..... SW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Sec 12, T.14N.;  
Describe as being within a 40-acre subdivision of public

R.24E., M.D.M. from which the Northeast Corner of said Section 12 bears N.  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

46° 06' 20" E., 1937.03 feet from the point of diversion.

6. Place of use..... SE $\frac{1}{4}$  of the NW $\frac{1}{4}$ , and SW $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 12; T.14N., R.24E.,  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

M.D.M.

7. Use will begin about..... January 1..... and end about..... December 31....., of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Use the existing well, pump and water lines  
State manner in which water is to be diverted, i.e. diversion structure, ditches and  
approved under Permit #48628. This application is supplemental to Permit #48628  
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works..... No additional expense is anticipated.

10. Estimated time required to construct works None. The well and water system are complete.

If well completed, describe works.

Two years. Some of this water will be put to beneficial use immediately, however, our herd growth is the direct result of raising our own heifers and it will take two years to increase to 1,500 milk cows and an equal number of replacement heifers.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is being filed to supplement the water approved under Permit #48628

as recommended in a letter from Mr. Steve Brown of your office dated Oct. 8, 1990.

The water is used primarily for stock water for 1500 Holstein Cows and 1500 Holstein heifers which are raised for replacement animals. Additional water is also used for cleaning and wash-up. Larger amounts of water are needed during the summer months when the cattle consume approximately twice as much water as during the winter.

APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to

exceed 0.03 cubic feet per second, but not to exceed 7.1

million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before September 27, 1993

Proof of completion of work shall be filed on or before October 27, 1993

Application of water to beneficial use shall be made on or before September 27, 1995

Proof of the application of water to beneficial use shall be filed on or before October 27, 1995

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed NOV 22 1993

Proof of beneficial use filed NOV 29 1995

Cultural map filed \_\_\_\_\_

Certificate No. 14430 Issued SEP 12 1996

IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.

State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 27th day of April,

A.D. 19 93

*[Signature]*  
State Engineer

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total combined duty of water under Permits 48628 and 55408 shall not exceed 37.1 million gallons annually.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.
